**ISO/IEC 27001:2013**

## **INTRODUCTION COURSE**

**COURSE DURATION: 1 DAY (IN-HOUSE OR ONLINE)**

### **Course Summary:**

The introduction course provides the participant with an oversight on the requirements of ISO/IEC 27001:2013 standard. Our course is designed for personnel who are responsible for the understanding of Information Security management systems. A practical application of the standard requirements provides the participant with the knowledge regarding information security management systems requirements. The course prepares the participant to understand the requirements for preparation to implement information security management systems as well as importance of Information Security Management as a tool to ensure compliance with customer and legal requirements and continual improvement. It demonstrates how information security management contributes to the day-to-day business operations through the effective application and management of resources.

### **WHO SHOULD ATTEND:**

- Those with the responsibility for information security management systems based on ISO/IEC 27001:2013 requirements.
- Those with an interest in information security management systems especially ISO/IEC 27001:2013; and
- Those who manage sections or departments information security management systems based on ISO/IEC 27001:2013 requirements.
- Those who have an interest in Information Security Management Systems.

### **PRE-REQUISITE:**

No pre-requisite is required for this training course.

### **OUTCOME:**

With the successful completion of this course the participant will be able to:

- Understand the ISO/IEC 27001:2013 as a management tool.
- Understand the seven information security principles and the application of such.
- Identify the requirements as set by the standard.
- Understand and apply the process approach.
- Understand and apply risk-based thinking,

- Develop certain documented information required by the standard.

### HOW WILL I BENEFIT?

- Guarantee understanding of the requirements of ISO/IEC 27001:2013 ensuring compliance with ISO/IEC 27001:2013 requirements.
- Ensure employees have Information Security management responsibilities and awareness.
- Understand how to manage all risks and maintain and improve a global benchmark in Information Security standards.
- Realise the key importance of Information Security Management in a business operation; and
- Be able to participate in the development of the required documentation for the business based on ISO/IEC 27001:2013 processes.

### COURSE VENUE:

Courses are presented at the SACAS Head Office in Vanderbijlpark, sites in Johannesburg, Durban, and Bloemfontein on request as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

### ADDITIONAL INFORMATION:

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels.
- Attendance for the full duration of the course is required; and
- An attendance certificate is provided.

For any training requirements please feel free to do bookings at our training department at [training@sacas.co.za](mailto:training@sacas.co.za) or contact Jayne at (+2716) 931 2001.

ISO/IEC 27001:2013

## IMPLEMENTATION COURSE (MODULE 1)

**COURSE DURATION: 3 DAYS (IN-HOUSE OR ONLINE)**

### **Course Summary:**

The implementation course provides the participant with an in-depth level of knowledge on the requirements of ISO/IEC 27001:2013 standard. Our course is designed for personnel who are responsible for the development and implementation of the Information Security management systems. A practical application of the standard requirements provides the participant with in-depth knowledge regarding the development, implementation, and maintenance of the Information Security management systems requirements. The implementation course prepares the participant to understand the requirements for auditing preparation as well as importance of Information Security Management as a tool to ensure compliance with customer requirements and continual improvement. It demonstrates how Information Security management contributes to the day-to-day business operations through the effective application and management of resources.

### **WHO SHOULD ATTEND:**

- Those with the responsibility for implementation of Information Security management systems based on ISO/IEC 27001:2013 requirements.
- Those with an interest in Information Security management systems especially ISO/IEC 27001:2013; and
- Those developing Information Security management systems based on ISO/IEC 27001:2013 requirements.

### **PRE-REQUISITE:**

It is recommended that a minimum educational level of Matric or equivalent NQF level 4 qualification be attained to cope with the content.

### **OUTCOME:**

With the successful completion of this course the participant will be able to:

- Apply the ISO/IEC 27001:2013 as a management tool.
- Understand the seven Information Security principles and the application of such.
- Identify the requirements as set by the standard.
- Understand and apply the process approach.
- Understand and apply risk-based thinking,
- Develop certain documents required by the standard.
- Develop a thorough understanding of the interaction of the various processes as determined by the ISO/IEC 27001:2013 standard.
- Evaluate certain management systems requirements through the application of the ISO/IEC 27001:2013 standard clauses; and

- Work with the processes for implementing documented information and processes.

### HOW WILL I BENEFIT?

- Guarantee continuing compliance with ISO/IEC 27001:2013 requirements.
- Ensure employees have Information Security management responsibilities and awareness.
- Manage all risks and maintain and improve a global benchmark in Information Security standards.
- Realise the key importance of Information Security Management in a business operation; and
- Be able to participate in the development of the required documentation for the business based on ISO/IEC 27001:2013 processes.

### COURSE VENUE:

Courses are presented at the SACAS Head Office in Vanderbijlpark, sites in Johannesburg, Durban, and Bloemfontein on request as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

### ADDITIONAL INFORMATION:

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels.
- Attendance for the full duration of the course is required; and
- A prescribed pass rate of 60% for the written test is required to obtain a certificate on completion of this course.

For any training requirements please feel free to do bookings at our training department at [training@sacas.co.za](mailto:training@sacas.co.za) or contact Jayne at (+2716) 931 2001.

ISO/IEC 27001:2013

## INTERNAL AND SUPPLIER AUDITOR COURSE (MODULE 2)

**COURSE DURATION: 3 DAYS (IN-HOUSE OR ONLINE)**

### **Course Summary:**

Auditing of Information Security management systems forms an important part of the process to demonstrate continual improvement, thus the ISO/IEC 27001:2013 standard requires that the Information Security management system must be audited on a periodic basis. The Internal Auditor Course is designed for persons to conduct internal audits. The course material is based on sampling methods, interviewing techniques, effective listening skills, compiling non-conformities and value-added report writing. Special emphasis is devoted to clausuring of non-conformances and effective development of corrective action requests. The internal auditor course is designed specifically for those individuals responsible for carrying-out internal audits in accordance with ISO/IEC 27001:2013 standard requirements. This training course is presented at an advanced level and adds value as well as prepares a business for certification by an accredited certification body like SACAS. The course provides participants with opportunity to audit against procedures written for real world applications. Participants are exposed to real life scenarios and are equipped to conduct internal as well as supplier audits in a professional manner. Auditor roles and responsibilities including personal behaviour is also covered as well as the documentation forming part of the internal audit as well as supplier audit process and audit objectives, audit scope and audit criteria.

### **WHO SHOULD ATTEND:**

- Those with the responsibility for internal auditing of Information Security management systems based on ISO/IEC 27001:2013 requirements.
- Those with an interest in auditing Information Security management systems based on ISO/IEC 27001:2013 requirements.
- Those developing an Information Security management system based on ISO/IEC 27001:2013 requirements.

### **PRE-REQUISITE:**

The level of focus and presentation is high, and it is therefore requested that participants demonstrate the following:

Successful completion of ISO/IEC 27001:2013 Implementation course.

Practical experience in the management of an Information Security Management Systems based on ISO/IEC 27001:2013 requirements.

### **OUTCOME:**

With the successful completion of this course the participant will be able to:

- Relate to and apply the ISO 19011:2018 requirements for auditing management systems.
- Develop certain documents required by the standard.
- Develop auditing material required to conduct an internal audit.
- Plan and prepare the auditing process.
- Apply the principles of planning, executing, recording and close out of an audited scenario; and
- Develop and implement key documentation to ensure the auditing process is concluded in a professional manner.

### **HOW WILL I BENEFIT?**

- Guarantee continuing compliance with ISO/IEC 27001:2013 requirements.
- Ensure employees have Information Security management responsibilities and awareness.
- Manage all risks and maintain and improve a global benchmark in Information Security standards; and
- Be confident that your organisation can rely on ISO/IEC 27001:2013 competent internal auditors.

### **COURSE VENUE:**

Courses are presented at the SACAS Head Office in Vanderbijlpark, venues in Johannesburg, Durban, and Bloemfontein as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

### **ADDITIONAL INFORMATION:**

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels.
- Attendance for the full duration of the course is required.
- A prescribed pass rate of 70% for the written test as well as a practical assignment to be done afterwards at the workplace, is required to obtain a certificate on completion of this course.

For any training requirements please feel free to do bookings at our training department at [training@sacas.co.za](mailto:training@sacas.co.za) or contact Jayne at (+2716) 931 2001.

## ISO/IEC 27001:2013 LEAD AUDITOR COURSE (MODULE 3)

**COURSE DURATION: 5 DAYS (IN-HOUSE OR ONLINE)**

### **Course Summary:**

(This course is not yet a SAATCA registered course and is in the process to obtain registration)

This comprehensive five-day course provides hands-on training to ensure lead auditors thoroughly understand the role of the auditor and lead auditor and to ensure they acquire the expertise to perform audits effectively. This course addresses the principles and practices for effective internal and external audits in accordance with ISO/IEC 27001:2013, ISO/IEC 17021-1:2015, ISO/IEC 17023:2013, ISO/IEC 27006:2015 as well as ISO 19011:2018.

Auditing of Information Security management systems as a third-party auditor forms an important part of the process to demonstrate conformity to the ISO/IEC 27001:2013 standard, although the ISO/IEC 27001:2013 standard only requires internal audits, companies cannot be claimed to be compliant with ISO/IEC 27001:2013 unless certified by a legitimate accredited certification body who is a multilateral member of the IAF. The Lead Auditor Course is designed for persons to conduct audits internally or externally or who wants to become a SAATCA registered auditor/lead auditor. The course material is based on sampling methods, interviewing techniques, effective listening skills, compiling non-conformities and value-added report writing. Special emphasis is devoted to clausuring of non-conformances and effective development of corrective action requests. The lead auditor course is designed specifically for those individuals responsible for carrying-out audits in accordance with ISO/IEC 27001:2013 standard requirements. This training course is presented at an advanced level and adds value as well as prepares auditors for registration as a SAATCA registered auditor or lead auditor. The course provides participants with the opportunity to audit against procedures written for real world applications.

### **WHO SHOULD ATTEND:**

- Anyone involved with the auditing of ISO/IEC 27001:2013 Information Security Management Systems such as Information Security Management Representatives, ISO/IEC 27001 coordinators and Information Security Control Managers.
- Those with an interest in auditing Information Security management systems based on ISO/IEC 27001:2013 requirements especially as a third-party auditor/lead auditor; and
- Those developing an Information Security management system based on ISO/IEC 27001:2013 requirements.

### **PRE-REQUISITE:**

The level of focus and presentation is high, and it is therefore requested that participants demonstrate the following:

Successful completion of an ISO/IEC 27001:2013 Implementation course)

Practical experience in the management of an Information Security Management Systems based on ISO/IEC 27001:2013 requirements.

### **OUTCOME:**

With the successful completion of this course the participant will be able to:

- Relate to and apply the ISO 19011:2018, requirements for auditing management systems and ISO/IEC 17021-1:2015 conformity assessments - requirements for bodies providing audit and certification of management systems.
- Develop certain documents required by the standard.
- Develop auditing material required to conduct an internal audit; Plan and prepare the auditing process.
- Apply the principles of planning, executing, recording and close out of an audited scenario; and
- Develop and implement key documentation to ensure the auditing process is concluded in a professional manner.

### **HOW WILL I BENEFIT?**

- Guarantee continuing compliance with ISO/IEC 27001:2013 requirements.
- Ensure employees have Information Security management responsibilities and awareness.
- Manage all risks and maintain and improve a global benchmark in Information Security standards; and
- Be confident that you are competent as an auditor/lead auditor.

### **COURSE VENUE:**

Courses are presented at the SACAS Head Office in Vanderbijlpark, sites in Johannesburg, Durban, and Bloemfontein on request as well as at customer sites throughout South Africa as public courses with a minimum of four attendees.

### **ADDITIONAL INFORMATION:**

The maximum number of participants for this course is 15 with a minimum of 4.

- Participants are assessed to both individual and group performance competence levels.
- Attendance for the full duration of the course is required.
- A prescribed pass rate of 70% for the written test as well as a practical assignment to be done afterwards at the workplace, is required to obtain a certificate on completion of this course.

For any training requirements please feel free to do bookings at our training department at [training@sacas.co.za](mailto:training@sacas.co.za) or contact Jayne at (+2716) 931 2001.

ISO 31000:2018
